SUMMARY

Cybersecurity postgraduate student with hands-on experience in security monitoring, threat hunting, and SOC operations through academic projects and security research internships. Proficient in incident response fundamentals, security event correlation, and threat investigation practices. Experienced with Splunk, Azure Sentinel, KQL and detection engineering.

EDUCATION

National Forensic Sciences University	2025–2027
M.Tech Cyber Security	
B K Birla Institute of Engineering and Technology	2020–2024
B.Tech Computer Science	

EXPERIENCE

Security Intern — NulcyberX	Jan–Jun 2025
Performed vulnerability assessments, incident response, and network security monitoring .	
Cloud Intern — LinuxWorld Informatics Pvt Ltd	Jun–Jul 2023
Built a Web-based platform integrating AWS services, Docker, Shell-in-a-Box, and ChatBot via Python CGI APIs.	

PROJECTS

Azure Sentinel Detection Engineering

- Designed and implemented 8+ KQL detection rules in Microsoft Sentinel to detect security threats, mapped to the MITRE ATTACK framework.
- Built an Isolation Forest-based anomaly detection model with 85 percent + detection accuracy and automated Sentinel alert generation.

Threat Hunting Platform using Splunk

- Built a SOC Threat Hunting platform with real-time monitoring and threat detection using Splunk.
- Performed log analysis, threat hunting, and incident investigation through simulated attacks.

DevSecOps Pipeline on AWS

- Developed a DevSecOps CI/CD pipeline on AWS using CodePipeline, CodeBuild, ECR and EKS, Docker.
- Integrated Bandit, Trivy, Secrets Manager, and CloudWatch for automated security scanning, secure deployments, and monitoring.

SKILLS

Languages: Python, Bash, SPL, KQL

SIEM & Monitoring: Microsoft Sentinel, Splunk, Elastic (ELK) Stack, Sysmon

Security Tools: Nmap, Wireshark, Burp Suite, OWASP ZAP, Snort, Metasploit, FTK Imager, EnCase, Volatility, Autopsy

Cloud & DevSecOps: AWS IAM, AWS CloudTrail

Concepts: Threat Detection, Threat Hunting, Incident Response, Threat Intelligence, MITRE ATT&CK, Detection Engineering, Digital Forensics, Triage, Remediation, Incident Documentation

ACHIEVEMENTS

- LetsDefend Certified SOC Analyst and DPDPA Certified.
- Among global top 3% on TryHackMe.
- ISO 27701:2025 Certified Lead Auditor - **Mastermind**
- Fortinet NSE 1, 2, 3 — Fortinet
- AWS Cloud Security foundation
